

CHAPTER V

CONCLUSION AND SUGGESTIONS

5.1. Conclusion

This research aims to describe Students' perceptions of the use of Twitter to learn English. Based on the analysis of the data and the discussion, the Researcher concludes that Students have positive perception toward the use of Twitter to learn English. It can be seen from the mean score of all statements in the Questionnaire results which is more than 2.00. Besides it, the percentage of Students' perceptions shows that students realize how important Twitter for learning English.

Students realized many benefits of Twitter for them in learning English. Based on Students' perceptions, Twitter is the social media that can be used as a tool for sharing and getting information and opinion, which contain new English vocabulary. The motivation of the majority of students in using Twitter is to get the new friend. It is because Twitter is the social media that allows its users to interact and communicate with other users, including those from different countries. In addition, students believed that Twitter can be used to increase knowledge including English knowledge because Twitter users can communicate with other users from various countries by using English as the international language, Moreover, students realized that Twitter is helpful to enrich their vocabulary mastery and to understand new English vocabularies easily. Then, students also believed that Twitter is the Social Media that is helpful to improve their English skills, including in speaking and writing.

5.2. Suggestions

After finishing this research, the Researcher tries to give some suggestions to English teachers, students, and other researchers.

5.2.1. For English Teachers

English Learning Teaching should not only be about in the classroom, but the Teacher can use the tool that students often use which make them enjoy and comfortable to learn English. Twitter as one of the social media can be a tool in learning English. Since, the use of Twitter gave many benefits for students, the teacher can use Twitter as an alternative tool in the English learning process which is enjoyable and fun.

5.2.2. For Students

Students should give more attention to the use of Twitter to help them in learning English. Since there are many benefits students can get from learning English, students can use Twitter as the Social Media that can help them in learning English comfortably.

5.2.3. For Other Researchers

Since the use of Twitter can be a tool to learn English, so that, the other researcher can use this research as a reference for the future similar research related to how effective Twitter to help students in learning English.
