

CHAPTER V

CONCLUSION AND SUGGESTION

The chapter presents the conclusion and suggestion dealing with the research findings of the study. The conclusion of this study refers to the summary of the findings that discussed in chapter IV. The conclusion and suggestion are represented as follow:

5.1. Conclusion

From the finding at the study presented in chapter IV. The researcher conclude that the Implementation YouTube Videos as media in writing recount text for the eight grade students is better.

For the first research question the researcher concluded that the teacher as research subject, used picture media before he implemented YouTube Videos in teaching recount text.

For the second research question it can be concluded that the researcher was implemented successfully using YouTube Videos as the media in writing recount text for the eight grade students.

5.2 Suggestion

Based on the conclusions stated above, some ideas need to be suggested to to English Teacher, students and researcher.

5.2.1 The teacher

For the English teachers, they are suggested to apply in teaching learning process especially writing Skill because when using This Media, Students are more active and comfortable situation in the classroom. The students enjoyed the class because saw the videos.

5.2.2 The Students

The students can be active since they can do sharing with their friends, making outline, using dictionary, and so forth. The students should study hard and let themselves be more active in writing English if they want to understood well. For the effective learning, the students need to find additional materials from any sources.

5.2.3 The Researcher

This study focused on the use of authentic text to develop the students' writing skill. Moreover, other researchers can conduct the study with the same material but focusing on other skills.
