

CHAPTER V

CONCLUSION AND SUGGESTIONS

A. Conclusion

Based on the results of the analysis and discussion in the previous chapters carried out by the researcher, the researcher with this draw conclusion as follows, the researcher found three characterizations for John Forbes Nash as the main character in the novel "A Beautiful Mind" by Sylvia Nasar. The researcher found 9 data supporting the identification of characterization applied to the main character in the novel "A Beautiful Mind". Those results of the identification were categorized into three namely: (1) The figure of speech used by author containing 2 data, (2) The behavior or actions of the characters described by the author in the novel containing 6 data, and (3) The conversation between the characters described by the author containing 1 datum.

The Novel "A Beautiful Mind" by Sylvia Nasar not only tells about romantic or religious stories but in this novel has a lot of learning that we can take. For example, as a smart scientist. John Forbes Nash does not only have good character but also has a bad character, he is an introvert and has his own world. John Forbes Nash felt he did not need anyone else in his career success. As an introvert person could trigger John Forbes Nash to have a mental disorder in his health. We as social beings always need other people in daily lives, even though we have intelligence but the people around us also play an important role in the success of our careers.
