

CHAPTER V

CONCLUSION

Based on the research findings, this textbook is compatible with question indicators in English final exam framework 2018/2019. The compatibility is 62% and the incompatibility is 38% from the total questions 50 numbers, 30 numbers are multiple choice, 15 numbers are short answer and 5 essay questions. The data gained from Guess What textbook level 1 to 6 which published from Cambridge University Press. This book designed for ESL young learners.

The researcher claimed that this textbook has higher level than the textbook in Indonesia even this textbook designed for EFL young learners. The question indicators in English exam framework are the materials from fourth grade, fifth grade and sixth grade but the researcher found the materials delivered in the first level in Guess What textbook. And the researcher found the materials were delivered in easy way since there are so many pictures and also interesting exercises.

The researcher argued that this textbook is very appropriate with the framework and the learners will not face the difficulties if the book used by learners from their first year. But unfortunately, the school researched by the researcher still use this textbook for three years.
